

QA Tester - Take home assignments

Please submit solved assignments no later than June 8th, 2023 23:59

Assignment #1

We have a simple gallery page that shows images at http://the-internet.herokuapp.com/broken_images Can you please automate a testing suite with a tool of your choice (Cypress, Selenium, etc) and share a code in a git repository? The key is teamwork!

Assignment #2

There's a simple file upload page at <http://the-internet.herokuapp.com/upload> Can you please provide a QA report and automate (same as in assignment #1)?

Assignment #3

You are provided with a guide for API endpoints (<https://jsonplaceholder.typicode.com/guide/>) Please generate a Postman collection and QA report for the following entities:

- Posts
- Comments
- Users

Assignment #4 (extra points)
